Public Outreach on Population Health

Project Title	Public Outreach on Population Health
Project Summary	The project consists of creating infographics to post to the health center's Facebook page. To also include research regarding population health for tribes in the Dakotas.
Country	United States

Project Description

Students will work with clinical and administrative leadership to develop infographics to be displayed within the facility and posted to the Facebook page. The student will assist with topics related to clinical measures required to be reported on via Government Performance and Results Act (GPRA), which includes dental access, immunizations, diabetes measures, prevention measures, etc.
